

****CONSTRUCTION ALERT****

FULLERTON ROAD BETWEEN RAILROAD STREET AND ROWLAND STREET/SAN JOSE AVENUE TO CLOSE FOR 36 MONTHS; LOCAL BUSINESS ACCESS WILL BE MAINTAINED

NORTH FULLERTON ROAD CLOSURE

DETOUR ROUTES

WHAT

The Alameda Corridor-East Construction Authority (ACE) has begun construction on the Fullerton Road Grade Separation Project, immediately north of State Route 60 in the City of Industry and unincorporated community of Rowland Heights. The project will consist of a six-lane roadway underpass for vehicular traffic, four-track railroad bridge, and a roadway bridge for Railroad Street spanning Fullerton Road. Upon completion, crossing congestion, potential collisions with trains and noise from train horns will be eliminated. The next phase of work requires the full closure of Fullerton Rd. between Railroad St. and Rowland St./San Jose Ave. for utility relocation work and to build the underpass and bridges (see map above).

WHEN

Major construction will commence on or after **Wednesday, July 26, 2017** with the closure of Fullerton Rd. between Railroad St. and Rowland St./San Jose Ave. to through traffic for 36 months. Most work will take place on weekdays between 7 a.m. and 4 p.m. Weekend and night work will be performed only when necessary. Completion of construction is anticipated in Summer 2020.

WHAT TO EXPECT

Northbound and southbound traffic lanes on Fullerton Rd. between Railroad St. and Rowland St./San Jose Ave. will be closed to through traffic. **Access to local businesses on Fullerton Rd. will be maintained, from Rowland St./San Jose Ave.** Motorists are encouraged to use Azusa Ave. and Nogales St. as major north-south detour routes. Gale Ave., Rowland St. and San Jose Ave. remain open for east-west travel. Portions of the adjacent sidewalks will also be closed with pedestrian detours provided. Motorists and pedestrians are urged to obey posted signs and exercise caution while in the vicinity of the construction activities.
