Executive Director

Mark Christoffels
Chief Engineer

WHAT: Fairway Drive will be closed to traffic at the railroad crossing immediately north of the State Route 60 Freeway in the City of Industry and unincorporated community of Rowland Heights for the next 36 months for construction by the Alameda Corridor-East Project (ACE) of a four-lane roadway underpass and four track railroad bridge to carry freight and Metrolink trains over Fairway Drive. The rail-roadway grade separation will reduce vehicle emissions and traffic congestion by an estimated 27.6 vehicle-hours of delay each day due to lowered gates at the crossing, which is traversed by 49 trains per day. The project will eliminate collisions, train horn noise and delays for emergency responders and improve safety. Seven collisions have been recorded at the Fairway Drive crossing over the past 10 years.

WHEN: The road will be closed at approximately **9 p.m. on Thursday, June 7, 2018.**

WHERE: Fairway Drive will be closed between Walnut Drive North and Business Parkway in the City of Industry and unincorporated community of Rowland Heights.

WHAT TO EXPECT: Local access to businesses on Fairway Drive will be maintained. All vehicles and pedestrian traffic are encouraged to use Lemon Avenue and Nogales Street as north-south detours. For additional information, please contact the ACE Project Helpline at (888) ACE-1426 or follow construction updates on Twitter @FairwayGS.

###

About the ACE Project: The ACE program calls for constructing safety improvements at 39 crossings and 19 roadway-railroad grade crossing separations. The ACE Project will relieve traffic congestion, improve safety and reduce emissions and noise at rail crossings while helping ensure the San Gabriel Valley's continued economic vitality. For a copy of the ACE Project video, please call (888) ACE-1426 or visit www.theaceproject.org.
